

The kneelsit

Ergonomic Chair Helps Relieve Back Pain

Unique ergonomic chair design based on years of research lets you sit for hours with no back pain.

Kneelsit is a groundbreaking ergonomic computer chair that has been enthusiastically received by users and applauded by medical and scientific [professionals](#) from major institutions. Even those who previously used other types of ergonomic chairs have switched to the Kneelsit to relieve pain and sit comfortably for hours on end. Here's why...

Kneelsit - The Only Computer Chair With Swivel-Axle Design

The Kneelsit computer chair offers a combination of forward sloping seat and continuous movement. But it's the exclusive, patented, swivel-axle mechanism that makes Kneelsit superior to other chairs because it can be customised to your specific body type.

You can easily adjust the seat, backrest and kneeler until you've found the exact position to aid your body in enhancing motor skills, increasing alertness and relieving pain.

Many customers have told us that they gained relief from the symptoms of scoliosis, sciatica, worn lumbar discs and back pain when using the Kneelsit ergonomic chair. Even if you're one of those lucky people who don't get a sore back from sitting you'll be pleasantly surprised by the Kneelsit because it is such a comfortable computer chair.

Even though you may not be consciously aware of this, all the time you are using the Kneelsit your discs are being nourished so your spine stays healthy. You will gradually become aware, however, that you are comfortably balanced and have much better posture. You can check out all the extra [benefits](#) here.

a great sense of well being when using it.

"Hi Greg, Thanks for the chair. I thought you'd be interested in my feedback. I've now been using it for a couple of weeks and am delighted with it! The construction and upholstery exceeded my expectations. One has to be wary of all the claims that are made for products on the internet - the real Kneelsit is better than the description! Your chair is terrific and gives me a great sense of well-being when using it. Wishing you all the best,"

Fiacre Baker,
Adelaide, Australia .

Superior Construction, Style and Quality

In addition to the exceptional comfort and pain-relieving properties, the Kneelsit ergonomic chair is durable and stylish. Built to last, Kneelsit has an all-steel frame for durability and strength plus three layers of "Enduro" foam for comfort. Upholstered in your choice of fine, black leather or an attractive grey fleck cloth, your Kneelsit computer chair looks as good as it feels. Each chair is individually inspected prior to shipping to ensure quality. And it's all backed by our **60 day Moneyback Guarantee and 15-**

year warranty.
