Latest feedback:

This is an incredible script it has everything I was looking for, its one of a kind out there so I hope I can use it on my server, this script is so incredible that after you try the demo on your site everything else becomes obsolete, this is the most complete dating script I ever found on the net. *Ronald.*

I have been investigating various different dating site solutions for several months now for several dating sites that I am looking at setting up in Australia. After much investigation I feel that your software offers far more than all of the lesser priced (and most of the more expensive) sites. *Scott.*

Wow, I am impressed with your software. I've looked at around 30 programs and yours stands out. *Alex.*

I am interested in the aeDating - Private Label Dating Software. Initially I contacted my web designer for a quote on designing an online dating site, however he advised me to search the internet for software such as yours as his company would not be able to produce a site as economically as one which had already been set up. After having spent hours surfing through the internet I came across your software which looks as though it would be perfect for starting up an online dating site. *Tish.*

Can you please tell me how much the corporate package is? Also what is the difference between the corporate package and the commercial package? I am strongly considering buying your software in the very near future. It is the best I have seen so far. *Felecia.*

We are looking at aeDating by AEwebworks.com as the potential option for building a serious and professional dating site. *Elie.*

Hello there, I have been looking at the software as advertised on your site. I was looking for a script to use as a swingers contact site in the UK. Your software seems to have everything that I require. *Lea.*

I would like to say that I have spent a long time reviewing dating software and wish I would have found you first. Your software has more than all the features that I have been looking for at a price that no one can even come close to. *Damon.*

I presently operate an online dating service with software that I am not very happy with. While I am thinking of changing what I have, I would like to setup another site. I have looked at your website and I would like to discuss the possibility of obtaining private label site software from you. *Ale.*

I am very impressed with your software and I can't wait to see what a difference it will hopefully make to my site. *Sheryl.*

We were looking at a different solution, but my team now likes your new version much better than anything we've seen. *William.*

Important notices:

We do accept credit card payments; we just don't accept them from the site. Just send us an e-mail with your full name and the package of your choice, and we will send you a payment request for secure online payment by credit card.

aeDating 2 is the only option for totally private label dating, personals, or matchmaking site. Package price is \$690, which includes free lifetime version upgrades, tech support and installation.

One license is per one site/domain only. Additional licenses may be purchased with a \$100 discount per license. Main license limitation is that you may not use the package for more than one site and you may not redistribute it.

aeDating may be used for any type of dating website - swingers, gay, lesbian, religious, racial, geek... just any. Moreover, it can be configured for any other type of classified ads site. Customization services are not included into the package price, but can be provided by our professional developers team.

New versions appear about twice a year. Every license holder has a right for free lifetime version upgrades.
